SUMMARY

Information Systems student at Universitas Teknologi Yogyakarta with a strong focus on system analysis, data processing, and operational administration. Equipped with hands-on experience ranging from managing daily transaction records to building integrated systems, I am accustomed to preparing detailed work reports and communicating effectively within teams and across departments. Highly adaptable and fully prepared to contribute to the smooth running of business operations in a dynamic work environment.

EXPERIENCE

AURORA BEAUTY SALON — **IT & Operations Intern | Feb 2025 – Feb 2026**

- **Operational Administration:** Managed weekly operational administration by organizing transaction records and serving as the primary point of contact for online customer communications and reservations.
- **Data Analysis & Processing:** Analyzed and processed operational data to resolve the issue of overlapping manual schedules, utilizing these insights to design a more efficient solution.
- **System Implementation & Impact:** Built a web-based reservation platform to support integrated business processes. This initiative successfully delivered a targeted system, proven by reduced booking durations, minimized customer queues, and increased accuracy in daily record-keepin.

PT. SWEVEL UNIVERSAL MEDIA — **UI/UX Designer & QA Intern | Sept 2025 – Jan 2026**

- **Design Quality Assurance (Design QA):** Conducted manual testing on the developed web application to ensure strict adherence to the original design specifications. Meticulously verified color hex codes, typography, and button functionality against high-fidelity prototypes.
- **Bug Identification & Reporting:** Actively identified UI discrepancies and functional errors (bugs) during the development phase. Documented and reported issues via internal team channels, ensuring clear communication with the development team for prompt resolution.
- **Developer Collaboration:** Liaised regularly with Fullstack Developers to discuss technical feasibility and resolve interface issues, ensuring the final product was not only visually accurate but also user friendly.

PERSONALITY KOPI — **Barista Intern | September – November 2024**

- **Operational Discipline & SOP Compliance:** Strictly followed Standard Operating Procedures (SOP) for recipes and station cleanliness. This experience trained me to maintain high standards and consistency in every output.
- **Responsibility:** Learn to handle my duties seriously, ensuring that every task, from cleaning to serving, was done properly to support the team.
- **Attention to Detail:** Responsible for the precise calibration of espresso machines and measurements. Developed a habit of double-checking results to ensure zero defects in the final product served to customers.

HMSI UTY — **President | 2023 - 2024**

- **Strategic Leadership:** Led the organization by coordinating 5 divisions and executing 20+ programs. This role honed my ability to manage complex workflows and ensure every division operated according to the planned timeline.
- **Building Community:** Successfully rebuilt connections within the student network and created a welcoming environment, which increased member participation and retention.
- **Team Collaboration:** Organized collaborative projects and study tours. Learned that effective leadership relies on clear communication and fostering a culture where every team member's input is valued.

ACADEMIC PROJECT

AURORA BEAUTY SALON SYSTEM

- **Test Planning:** Created comprehensive test cases for a web-based salon booking system.
- **Black Box Testing:** Conducted Black Box Testing on critical features (Login, Booking, Payment) to ensure system functionality met requirements.
- **Documentation:** Documented test results and validation scenarios to verify that the software was bug-free.

ESTIMATOR.ID (AI INTEGRATION)

- **AI Accuracy Validation:** Conducted specific testing on the AI-generated responses to ensure the accuracy of material price estimations and data retrieval against the vendor database.
- **Performance Testing:** Evaluated the system's performance by monitoring the AI's response time (latency) on the web platform, ensuring a fast and seamless user experience.
- **Documentation:** Documented test results and validation scenarios to verify that the software was bug-free.

RTHP SYSTEM (DINAS LINGKUNGAN KOTA YOGYAKARTA)

- **Functional Testing:** Executed manual testing on the Green Open Space (Ruang Terbuka Hijau) mapping and reporting system.
- **CRUD Validation:** Verified the functionality of the Admin Dashboard, specifically focusing on the stability of Login features and CRUD operations (Create, Read, Update, Delete) for spatial data entry.

SKILLS & CERTIFICATIONS

Hard Skills:

1. **Software Testing:** Proficient in Manual Testing, Black Box Testing, Functional Testing (CRUD), and UI/UX Testing.
2. **QA Documentation:** Experienced in creating comprehensive Test Cases, Test Scenarios, and Bug Reports.
3. **Tools Proficiency:** Skilled in using Figma (for Design QA). Microsoft Office (Excel/Word for Documentation), RapidMiner, and basic familiarity with VS Code.
4. **Web Concepts:** Understanding of web application flows, login validation, and input data processing.

Interpersonal Skills:

1. **Attention to Detail:** Meticulous in spotting visual discrepancies and functional errors (honed through QA & Barista experience).
2. **Analytical Thinking:** Strong ability to analyze system logic and predict potential user errors.
3. **Effective Communication:** Capable of bridging the gap between technical and non-technical teams (Developer Liaison).
4. **Problem Solving:** Critical thinker with a solution-oriented mindset when facing technical issues.
5. **Adaptability:** Quick learner in understanding new product features and business requirements.

| **English Proficiency Test** (TOEFL Prediction) By UTY Education, Certification, and Training Center |

| **Microsoft Office Specialist** By Microsoft | **Data Engineering Professional Certification** By RAPIDMINER |

EDUCATION

Information System Student at University Technology Yogyakarta (GPA 3,67) (2022 – 2026)

Senior High School 1 Kotamobagu (AVG 93,7) (2019 – 2022)
